

## FARMERS WILL ATTEND LARGELY

The State Institute to Be Held at Roanoke Next Week of First Importance.

THE SUBJECTS EDUCATIONAL Preparations to Entertain Visitors.

(Special to The Times-Dispatch.) BLACKSBURG, VA., July 4.—The attendance at the State Farmers Institute which convenes in Roanoke on July 10, 11 and 12 promises to be very large, according to all the information obtainable at the present time. Letters have come to the office of the secretary from all parts of the State asking for copies of the program, and making inquiry concerning railroad rates. The program has already been published in the papers, and is widely distributed through the State, and an announcement was made some time ago with reference to railroad rates. Any farmer desiring to attend the meeting can now secure a rate of a fare and a third on all the leading railroads in the State; certainly on any of the trunk lines and their branches. The railroad authorities have been very kind in this matter, and any person desiring to attend can obtain the information needed by applying to his local ticket agent.

The city of Roanoke is preparing to entertain the visitors to the very best advantage. A committee has been appointed by the Chamber of Commerce to meet delegates and assist them in finding suitable hotel and boarding-house accommodations at reasonable rates during their stay in the city. The meetings will be held in the beautiful Mountain Park Casino, which, owing to its construction, insures cool and comfortable quarters for the speaker and audience alike.

Entirely Practical. The gathering of farmers this year will be unusually representative, for the first time the State Institute has grown materially during the past year, and there will be representatives from many new localities. This is as it should be, for as has already been stated, the primary object of this meeting is to bring together farmers for a discussion of those phases of their business which are necessary to the modern farmer. The subjects of crop production and marketing, education and its relation to successful agricultural practice will be one of the principal themes discussed, for all progressive farmers now realize that the aid of scientific knowledge is essential to economic and successful crop production, especially since labor is so difficult to obtain.

An excellent program has been prepared, and while space forbids a detailed discussion of it, some of the more important topics to be considered are as follows: On the opening day there will be an address on "Shortcuts as a Factor in Our Cattle Industries," by Hon. B. O. Cowan, assistant secretary of the American Short Horn Breeders' Association, Chicago, Ill. The reputation of these cattle as beefmakers is too well known to need amplification at this time, and while wonderful progress has been made in the general quality of our beef cattle, there is much to be accomplished yet, and hence it is appropriate that a topic having such far-reaching influence on our agriculture should be given prominence at this meeting.

Build Up Virginia. "Building Up Virginia," a subject of vital interest to every good citizen, will be ably handled by Hon. L. E. Johnson, president of the Norfolk and Western Railway; Hon. M. V. Richards, of the Southern Railway, and Hon. J. W. White, of the Seaboard Air Line. The railroads are making an unusual effort at the present time to bring in desirable immigration, to develop much of our land that has not been highly productive in the past, and to supply farmers with a desirable class of labor. The labor problem is of such vital concern to our agriculture at the present time that the remarks of these gentlemen will be unusually interesting, and if they can aid us in securing a better class of labor at a reasonable cost, one of the most difficult situations in the State will be, at least, partly solved.

There will be an address on "The Improvement of the Rural Schools," by Hon. J. D. Eggleston, Superintendent of Public Instruction, who has shown during his incumbency of that office, that he is determined to make a record along this line, and to do something for the thousands of children who must obtain their education through the medium of the public school. This is certainly a movement in the right direction, and it is to be most heartily commended.

"The Feeding and Management of Lambs" will be ably discussed by Hon. Joseph E. Wing, of the Breeders' Gazette staff, Chicago, Ill. Mr. Wing is the apostle of alfalfa, and has made a phenomenal success of feeding and handling lambs on his Ohio farm. As the production of lambs is one of the most important and profitable industries in Virginia, his remarks will be of peculiar interest at the present time.

Improve Soil. "The Improvement of the Soil and the Maintenance of Fertility" is a subject of the most vital concern to our agriculture. Prof. W. F. Massey, the well-known scientist and editor of the Practical Farmer, Philadelphia, Pa., will lead the discussion of this very important subject. His efforts will be ably seconded by Prof. J. B. Miller, of Emory; T. O. Sady, of Burkeville, and Dr. C. U. Griggs, of Port Royal. These men have all made a marked success in their chosen field, and their great and important subject will, therefore, be handled in a thoroughly scientific and practical manner.

The subject of dairying is one of general interest to our people. This is a great and growing business. As the present time we are not supplying our home markets with all the choice butter, cheese, milk and cream needed. Yet we have very easily in the way of a favorable climate, soil and food for the production of milk and butter along economic and profitable lines. It is generally recognized that dairying is one of the most profitable forms of agriculture to engage in, but owing to its laborious nature, it has not made as rapid advancement as our favorable conditions would warrant. With the advent, however, of milking machines, which have proved satisfactory in every way, the industry is bound to grow. The remarks of Professor E. H. Webster, of the United States Department of Agriculture, and this Hon. A. R. Scott, member of the State Board of Agriculture from the Third Congressional District, and the other gentlemen assigned to this subject will, therefore, be of peculiar interest to the patrons of dairy husbandry.

Good Prices. "Profitable Prices for Farm Crops" will be discussed by Hon. C. Haynes Taylor, of Indianapolis, Ind. It is needless to say that the farmer expects smaller prices for the crops he grows than any other class of producers in America. If it is possible to devise ways and means by which the farmer can obtain a just remuneration for his efforts, it will do much to ameliorate conditions for agriculture, and to prevent the depopulation of the country for the crowded tenement of the city. With the coming of good roads, good schools, the telephone and rural delivery system, country life would be peculiarly attractive were it not for a more remunerative occupation. That it should be so, and hence the discussion of this subject is bound to attract a large share of attention. Mr. Taylor will be ably seconded by Mr. C. N. Stacy, of Amelia; Hon. A. F. Thomas, of Lynchburg, and R. O. Kolner, of Staunton.

"The Relation of the Press to Agriculture" will be another subject of unusual interest to the delegates, and will be discussed by Hon. J. F. Jackson, editor of the Southern Planter, Richmond, and Hon. T. D. Harman, editor of the National Stockman and Farmer, Pittsburg, Pa. The dissemination of useful scientific facts related to the complicated subject of agriculture is largely dependent on the work of the agricultural press, and the great daily papers. With the advent of the rural delivery system the daily papers have come to realize the importance of giving the farmer something definite and practical with reference to his occupation. This is certainly a movement in the right direction, and all those who are familiar with the power and influence of the press realize what a beneficial effect it has had on our agriculture. Every farmer should read a good, up-to-date paper, and the remarks of some of the gentlemen who have struggled to build up a press worthy of the great cause it serves will receive an attentive hearing.

Corn is the most important crop raised in Virginia, and its improvement will be discussed by Hon. J. H. C. Beverley, member of the State Board of Agriculture from the First Congressional District, and other gentlemen who have had practical experience in improving this important crop.

## HAD NOT WALKED FOR 11 MONTHS

Terrible Sore on Ankle Caused Awful Suffering—Could Not Sleep nor Rest—Physician Said Leg Would Have to Be Amputated.

CURED BY CUTICURA IN SIX WEEKS

"I had a terrible sore on my ankle and had not walked any for eleven months. I tried nearly everything without any benefit and had a doctor, but he didn't seem to do any good. He said I would have to have my leg taken off, and that I would never walk again. I suffered awful, and at night I could not sleep at all. I thought there was no rest for me, but as soon as I began to use Cuticura Soap and Ointment it commenced healing nicely. I bathed the ankle with warm water and Cuticura Soap, and then applied Cuticura Ointment to the affected part, and laid a cloth over the sore to hold it in place. After two weeks I could walk around in my room real good, and in six weeks' time my ankle was entirely cured and I was walking around out of doors. I am enjoying perfect health and have gone to work and feel as well as I ever did in my life, so I know that the Cuticura Remedies are the best in the world."

## CLUSTER CHIT-CHAT.

Visitors Buy Lots and Build Permanent Homes.

(Special to The Times-Dispatch.) CHESTER, VA., July 4.—"The Fourth" was spent very quietly at this place. Mrs. Virginia Jones, formerly of Chester, Va., but just removed to Richmond, is stopping here with her sister, Mrs. Sarah Jeffe. Mrs. Jones annually makes a visit here on her way to the mountain resorts.

Mrs. Mattie Cornwall and Craig, her son, came here yesterday from Henric, Va., and left today. Mrs. Cornwall contemplates building a home here, and to-day purchased two lots of Captain James L. Sneed. Her father, Mr. Robert C. Friend, is in very poor health, besides the usual feebleness of old age.

Miss Maggie Moore left today for Petersburg to visit her mother, Mrs. Kate Moore, who was suddenly taken ill in that city a week ago and had to be sent to the hospital there. Her case is reported a serious one, and the doctors say that a difficult operation will have to be performed before there is any hope of recovery.

The Chester Lodge of Odd Fellows had their semi-annual installation ceremonies at their hall here on the night of the 2d. Grand Master, J. W. Dunn, W. R. Wright, P. M. Smith and G. E. Fearnham, of the same lodge, officiating. The following officers were installed: H. C. B. Grand, J. W. Dunn, W. R. Wright, P. M. Smith and G. E. Fearnham, of the same lodge, officiating. The following officers were installed: H. C. B. Grand, J. W. Dunn, W. R. Wright, P. M. Smith and G. E. Fearnham, of the same lodge, officiating.

The Chester Lodge, No. 251, is a strong one, containing many of the best men of the county. The third degree was conferred on Monday night, and after the ceremonies refreshments were served. Mr. V. L. Cherry, with a portion of his family, will leave here Friday morning and spend his vacation at Portsmouth and Baltimore.

Ernest Ivey, who has had serious trouble with a diseased foot, is reported to be still very much troubled, notwithstanding the operation performed by surgeons.

Masters Burnett and Bennie Lewis, of Richmond, visited friends here to-day. Chester, Chatham and George Cofer took a trip to "Ocean View" to-day.

Mrs. Mary Proctor is visiting relatives here. The ice plants at Chester and Petersburg, having temporarily "frozen" out, the people of Chester are passing for a drop of "fritig water" to cool their parched tongues. Mr. Ellison and Mr. Worth, manufacturers, however, promise "ready relief." A great relief 'twill be for a "dry town."

NEW GALAXY OF STARS. Pulaski Soaring Aloft as Champions of the Diamond.

(Special to The Times-Dispatch.) PULASKI, VA., July 4.—The Fourth was celebrated in Pulaski with great enthusiasm among the baseball fraternity. Two great games were played with Pulaski, who has not lost a game this season, the champions still.

The morning game was with Salem, but was overshadowed by the afternoon game, which was played with the team known as the "Pulaski Stars." The game was a close one, with many sensational plays on both sides. With the "Collegians" in the lead by a score of 4 to 2 until the seventh inning, when the local champions got on to the professional pitcher and hit him for three runs, the game was turned around. The final score was 7 to 4 for Pulaski. A tremendous crowd witnessed the game and the universal verdict is that a great game has not been played in the Southwest since that time.

The reputation of the Pulaski team is spreading beyond the confines of the State, and already challenges have been received from Tennessee, Kentucky and all over Virginia, but up to date the Pulaski Athletic Club has yet to meet their equals on the amateur diamond.

THE NORMAL SCHOOL AT FREDERICKSBURG Has Large Attendance and is Doing a Fine Work.

(Special to The Times-Dispatch.) FREDERICKSBURG, VA., July 4.—The Fredericksburg Normal, with its large enrollment of hard-working teachers, is doing regular work. Examination by H. Russell is the conductor. Superintendent B. P. Willis, of the Fredericksburg public schools, is the local manager, and Miss Jennie M. Goodrick, of the Fredericksburg schools, is the secretary.

Mr. Russell is ably assisted by W. W. Hamlet, Richmond High School, physical geography, physics, elementary agriculture; F. M. Prillaman, Horse Pasture, Greek, Stults.

Remarkable Escape. Throw Horse, Buggy and Themselves Down Bank from Train.

(Special to The Times-Dispatch.) ROANOKE, VA., July 4.—H. H. Trout and R. H. Trout, the oldest and most prominent citizens, had a remarkable escape from death to-day. They were driving in a buggy, and just as they started to cross the Roanoke and Southern track a freight train came on them. Mr. Trout barely managed to jerk the horse around and throw the buggy and himself down an embankment. Mr. Trout's back was badly bruised by striking a rock, but Mr. Fishburn was uninjured.

Thank Martin and Hay. (Special to The Times-Dispatch.) WINCHESTER, VA., July 4.—At its monthly meeting last night the Common Council of Winchester passed resolutions thanking Senator Thomas Martin and Representative James Hay, for the efforts which resulted in securing for Winchester a \$50,000 public building.

Died from Lightning Stroke. (Special to The Times-Dispatch.) WINCHESTER, VA., July 4.—Henry W. Grady, who was struck by lightning near town, died at his home this morning. He was thirty-three years of age and son of Mr. and Mrs. James Grady, of Dayton, Va. He is survived by a widow, formerly Miss Anna Ferguson, of this county, and six small children, one brother and five sisters at Dayton.

## ELECTRIC PLANT NEARLY READY

Long-Awaited Machinery for Upper Appomattox Enterprise Now at Hand.

ELECTRICITY FOR LAMPS Reports of Treasurer and Auditor Show Excellent Financial Condition.

(Special to The Times-Dispatch.) PETERSBURG, VA., July 4.—The Virginia Passenger and Power Company's big electric power plant on the Upper Appomattox River will be in operation by the first of August, if not sooner. The long-awaited machinery, flood gates and other apparatus necessary to the working of the plant have arrived, and are being installed. Lihmore's arc lights instead of the present carbon lights will be used to light Petersburg's streets if the Board of Aldermen concur in the Council's action at last evening's meeting. They then approved the Gas and Light Committee's recommendation that the change be made by the Passenger and Power Company, whose bid of nine hundred dollars per annum for lighting the city offices was also recommended for acceptance in preference to the Petersburg Gas Company's bid of eighty-five dollars per month.

Reports from the City Treasurer and City Auditor show cash receipts from all sources for the past month to have been \$75,010.80; expenditures, \$30,827.58.

SHOT HIS UNCLE. Seventeen-Year-Old Boy Hides to Avoid Arrest.

(Special to The Times-Dispatch.) ALEXANDRIA, VA., July 4.—M. S. Kidd, a car inspector, employed by the Southern Railway, was probably fatally shot through the liver this afternoon at 3 o'clock by Cornelius Kidd, his seventeen-year-old nephew.

Kidd was taken to the Alexandria Hospital, where his injuries were treated by Dr. S. B. Moore. From a statement made by the father of the boy who did the shooting, it seems that the boy was playing ball in front of his house, when his uncle, who is said to have been drinking, commenced to curse him. The boy is said to have gone to his home, where he procured a pistol, and told his uncle not to bother him any more. It is alleged that his uncle grabbed him by the throat and choked him, whereupon he shot him, the ball passing through the lower part of the right lung and liver.

After the shooting the boy left his home, and is hiding in Alexandria county. His arrest is expected at any time.

GRAND TOURNAMENT AT CHARLOTTESVILLE

Miss Fleda Woods, of Rivanna, Crowned Queen of Love and Beauty.

(Special to The Times-Dispatch.) CHARLOTTESVILLE, VA., July 4.—The Fourth was pretty generally observed here to-day, business being practically suspended. The chief interest centered in the tournament held at the Albemarle Horse Show grounds, which was followed by a coronation ball and banquet. This tournament began at 3 o'clock, and was witnessed by several hundred people from this and adjoining counties.

The choice to the knights was delivered by Commonwealth's Attorney Arliffe D. Dabney. The contest for the first prize, one hundred dollars, was a spirited one, and was finally captured by Mr. Henry Washington Wood, of Rye Mount, this county. C. B. Wood, of Rye Mount, who was knighted at Pine Mountain, was second. Davis, of Longwood, third. The posts were seventy feet apart, and the course had to be covered in a period of six seconds.

From 9 to 10 o'clock the coronation ball was danced at the Fry's Spring pavilion, led by Mr. George Mason. Miss Fleda Woods, of Rivanna, was crowned queen of love and beauty. Miss Olio Marshall, of Earlysville, was named as first lady of honor, and Miss Dolly Durrett, of Stauntonville, second lady of honor.

A delightful banquet in the dining hall of the Jefferson Park Hotel was the climax of the day's gala events. A string orchestra, concealed behind a bank of palms, discoursed excellent music while the tempting menu was being discussed.

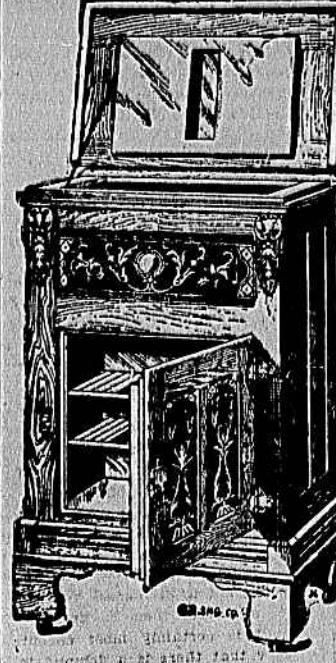

A thousand or more people went out to the park to look on at the coronation ball, and it was nearly midnight before the last of the crowd returned to the city.

ST. VITUS' DANCE. A Child of Ten Years Cured by Dr. Williams' Pink Pills.

Children are doubtless punished many times at schools for not keeping their heads for dropping things when the trouble is really chills, or St. Vitus' dance, as it is popularly called.

Often the patient loses flesh and becomes pale and bloodless. A remedy that cures St. Vitus' dance, and cures it so thoroughly that no trace of the disease remains, is Dr. Williams' Pink Pills. A recent cure is that of George, the ten-year-old daughter of Mrs. D. M. Romm, of Conestoga, Pa. Mrs. Romm says: "When George started to school last year she had stomach trouble, and afterward her mouth began to twitch. She would shake all over, and could not be still. After a few months her mind became affected. She was under the care of two doctors for almost four months. When she had been sick for about seven months we heard of a case like George's that had been cured by Dr. Williams' Pink Pills. It was in the latter part of February that she commenced to take the pills, and they cured her the greatest of the St. Vitus' dance, but helped her in every way. She never was very stout until after she took the pills, but now she has gained in weight. She goes to school every day, and is well and happy."

Dr. Williams' Pink Pills build up the body, and health and strength to every part of the body. They have cured severe cases of bloodlessness, indigestion, influenza, headache, dizziness, neuralgia, nervousness, spinal weakness and the special ailments of girls and women whose blood supply is weak. They are sold by druggists, or will be sent by mail, postpaid, on receipt of price, 50 cents per box, six bottles for \$2.50, by Dr. Williams' Medicine Company, Schenectady, N. Y.

## The Alaska.

Don't bother yourself because you've put off buying that Refrigerator so long, but come straight to us. The Alaska is the most popular and best known Refrigerator made. Its good ice and food keeping qualities sell it all over the world, from South America to China. Consequently, we have to keep a big stock of them the whole year round. Just now our stock is in splendid condition. We show you Alaska Refrigerators with from 20 to 1,500 pounds ice capacity, and prices range from \$10.00 to \$135.00. Sole agent.

# JÜRGENS

419, 421 EAST BROAD ST.

Our buyers will be in the Northern and Western markets for the next three weeks finishing up our fall buying. While away our salesmen have been instructed not to miss a sale, and as there is the strongest sort of an upward tendency in prices, you will find this an extraordinarily good time to buy your Furniture and Floor Coverings.

## The Paragon of Perfection.

The Incomparable

# White Steamer

A Pullman car for all sorts of roads, whether it is a finely paved city street, boulevard or rough road. A car that is the name of simplicity, and one that may be operated by anybody in the family safely, which makes it doubly attractive and delightfully pleasant for all.

Compare a White to cars selling at a much greater cost, and judge the performance of each; and you will see that the White is still the choice. DO NOT EXPERIMENT. It's expensive and annoying to experiment. The White has an indefinable elegance about it and is incomparable in every respect. Reliability and durability have made them popular. We will be pleased to answer any questions you may ask.

## A Time For All Things

And this is the time to buy a new fence for the garden. The chickens will destroy more than its cost in a week. We have all kinds—Poultry Netting, Wood Pickets, Woven Wire, as well as a full line of Lawn Fence. See our New Lawn Swings. The best made.

## Baldwin & Brown,

Headquarters for Good Fence, Hardware, Roofing, Lime, Plaster, Etc.

## COAL

### Stephen A. Ellison & Co.,

Wholesale Shippers of Anthracite.

are now taking contracts for Anthracite and Split. Drop us a line or 'phone for prices, which our facilities and location enable us to lead in. We buy only the highest grade, storing all fuel under shelter, from which it is delivered in all seasons of weather free of dirt, snow water or ice. You pay only for coal. Our service is unsurpassed.

'Phone 290 and 2914. Yards, Seventeenth and Dock Streets.

## BASKET PICNIC AND TEMPERANCE RALLY

Judge William H. Mann Makes Pleasing Address on Woman's Influence.

(Special to The Times-Dispatch.) CHESTERFIELD, VA., July 4.—A basket picnic and temperance rally was held here to-day by the united temperance societies of the county. By special invitation Rev. J. W. West, Mrs. Amy C. Weech, of Alexandria, and Judge William H. Mann, of the United States Circuit Court for the Eastern District of Virginia, were the two of the speakers following the most sumptuous dinner served for all the crowd.

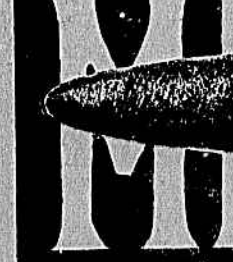

Judge Mann was assigned the theme, "The Influence of Women Upon Society," and delivered a pleasing and wholesome address on woman's sacred influence for the nation's welfare.

Mrs. Weech's beautiful talk on the subject, "Christ Before Pilate," was well received, and at its conclusion one of her songs was rendered by Miss Mary Smith and Mrs. H. J. Faylor.

Building a New Town. (Special to The Times-Dispatch.) CRAB ORCHARD, LEE COUNTY, VA., July 4.—W. F. Mahaffy has his fine, new, large sawmill running in full force now for the Kookes Mining Company here. The house building of the mining town is getting fairly under way now. The new structures are up-to-date in every respect.

The telephone line was wrecked by storms last week, but was renewed and repaired, and messages are being sent out as usual.

Called to Radford. (Special to The Times-Dispatch.) SOUTH BOSTON, VA., July 4.—Rev. D. Campbell Mayers, rector of Trinity Episcopal Church at this place, has accepted a call to Radford, Va. His resignation to rector here was accepted last Sunday morning. He expects to leave for his new field some time in September.
